ABOUT

I have been designing and developing user experiences and interfaces for over 10 years.
I live and work in London, where I create visuals compelling and user-friendly interfaces, using the latest tools and technologies.
With a background in multiple industries and countries, I am passionate about designing functional products with an eye for details striving to find simple solution for complex problems.
Focused on creating the right solution across all platform and devices aiming to create the best User Experience in response of specific needs.

EDUCATION

Strathfield College

EXPERIENCE

SENIOR UX/UI DESIGNER
Pod Point, London, United Kingdom
MAR 2020 - Ongoing

My main role as a Product designer at Pod Point is to maintain the current offering of charging products as well as improve them and collaborate on the creation of new one in the home and commercial charging space.

SENIOR UX/UI DESIGNER
Loki.code, San Francisco, US
2021 - Ongoing

My role as a designer at Loki.code spanned from shaping the product in the early beginning to creating and maintaining designs as well as planning the product roadmap and helping developers in understanding web3 design concepts.

UX/UI DESIGNER - ILLUSTRATOR - WEB DESIGNER
SAM Labs, London, United Kingdom
OCT 2018 - FEB 2020

As a main designer at SAM Labs I was in charge of the redesign of the flagship app for iOS, Android, Windows, Mac and Chromebook, also creating illustrations for the school content and taking part on the re-design of the website.

UX/UI DESIGNER
ORDERLY, Sydney, Australia
JUL 2016 - JUN 2018

As a user experience design at ORDERLY I led the design of the mobile and web platform application and research in the hospitality small and medium businesses, user interface design for the mobile, web platform and website.

UX/UI DESIGNER
Hosporeview, Sydney, Australia
APR 2018 - JUN 2018

As a main designer, my main role was developing the interfaces for the whole website (public and private) as well as taking care of the UX all around, starting from a list of requirements, functions and page, while communicating with the rest of the team.
